

October 1, 2020

Dear Parents,

Last week, the decision was made to close the Key School campus through October 2 to allow for deep cleaning, contact tracing, and quarantine due to a staff member testing positive for COVID-19. I would like to update you that the staff member with positive results has received clearance from the Tarrant County Department of Health to return to work. However, an additional staff member with symptoms is awaiting conclusive test results. Therefore, the following is the re-entry timeline for next week:

**Monday, October 5 –
Elementary students/teachers and Academic Language Therapy return to campus**

**Thursday, October 8 –
Middle School and High School students/teachers return to campus**

Should you choose for your child to continue distance learning through next week, they may do so through asynchronous learning in Google Classroom. Please notify your child's Student Advocate by Sunday, October 4 if you wish to choose this option of learning for the week of October 5.

Thank you for supporting your child during distance learning and we are looking forward to seeing our students next week!

Sincerely,

Leslie Vasquez
Key School Director
